Problem 1. Questions for you!

Have you signed up for Piazza?       Yes/No

Do you know where GS 228 is? (Could you take a friend there?)    Yes/No

What is the purpose of GS 228? (Why would you go there?)

Where are the homework assignments posted?

Where will you submit your homework assignments?

How many late days do you have for homework assignments?

Besides the midterms and final, there is nothing done in the MWF lecture that counts towards my grade.    True/False

Homework assignments will be given out every two weeks. True/False

Suppose that the assignment specification gives the submission deadline for a particular homework assignment as 7:00pm on Wednesday. Which of the following are OK times to submit that assignment by?

a) 6:59pm on Wed
b) midnight on Wed
c) 5pm on Tue
d) 6:59 on Mon
e) anytime up to 6:59pm on Thu
f) All of the above if I have not used all of my late days
Problem 2. When we write programs, we will write very detailed instructions, or sequences of steps, for the computer to execute. To practice this idea of writing detailed instructions, write a set of the specific steps needed to do one of the following tasks:

1) Brush your teeth
2) Change a tire
3) Find a class in U of A and register for it
