

# Icon Project Documents

Ralph E. Griswold

Department of Computer Science, The University of Arizona

Icon Project Documents (identified by "IPD") contain a variety of information about the Icon programming language and its implementation. The list that follows is provided for reference. Many IPDs are obsolete and out of print; these are identified by the symbol ●. Documents identified by ∅ are for internal use by the Icon Project and are not available for outside distribution. Documents identified by ⊕ are not yet available. Lowercase letters that follow IPD numbers indicate revisions.

IPD1e	How to Order Icon Programming Language Material ●
IPD2b	Version 6 of Icon for MS-DOS ●
IPD3b	The Icon Version 6 Porting System ●
IPD4	Version 6 of Icon for PC/IX ●
IPD5c	Compiling Version 6 of Icon for MS-DOS ●
IPD6	Version 6 of Icon for XENIX ●
IPD7b	Updates to the Icon Source Code for MS-DOS ●
IPD8b	Updates to the Icon Source Code for Porting ●
IPD9	Version 6 of Icon; Source Code for PC/IX ●
