

IMPORTATION OF NEW ZEALAND WOOL.—An importation of New Zealand Wool, the first, we believe, which has reached England, realized from 1s. 6d. to 1s. 7d. per lb. It is hoped that this is the beginning of an extensive trade in wool, an article which New Zealand is in so many respects so well suited to afford. Some specimens of fancy and plain wools imported from the island have been very generally admired and approved of.
