CHAPTER I. HISTORY OF THE SERICULTURAL INDUSTRY OF JAPAN.	1
CHAPTER II. THE PRESENT STATE OF SERICULTURAL INDUSTRY.	11
CHAPTER III. GOVERNMENT ENTERPRISES FOR SERICULTURAL INDUSTRY.	25
I. INSTRUCTION AND INVESTIGATIONS.	
A. Sericultural Institutes.	
B. The Higher Sericultural School.	
C. The Prefectural Schools of Sericulture.	
D. The Prefectural Institutes of Sericulture.	
E. Schools and Institutes Providing the Sericultural Course in the Curriculum.	
F. Experiments and Investigations.	
II. ENCOURAGEMENTS.	
A. Exchequer Subsidies for Industrial Schools.	
B. Exchequer Subsidies for Agricultural Training Places and Experiment Stations.	
C. Special Subsidies for Agricultural Experiment Stations and Agricultural Training Places.	
D. Encouragement for the Increase of Mulberry Plantations.	
E. Subsidies from the Local Government Offices.	
F. Circuit Lectures.	
G. Competitive Exhibitions.	
III. PRECAUTIONS AGAINST SILKWORM DISEASES.	
IV. CONDITIONING OF RAW SILK.	
CHAPTER IV. SERICULTURAL ASSOCIATIONS.	39
I. THE SERICULTURAL ASSOCIATION OF JAPAN.	
II. THE TAKAYAMA-SHA AND THE KYOSHIN-SHA.	
III. SERICULTURAL GUILDS.	
IV. SERICULTURAL CO-OPERATIVE SOCIETIES.	
V. MISCELLANEOUS SOCIETIES.	

	PAGE.
CHAPTER V. THE CULTIVATION OF MULBERRIES. ...	45
I. THE VARIETIES.	
II. THE MODES OF PROPAGATION.	
A. By Seedling.	
B. By Grafting.	
a. Branch Grafting.	
1. Cutting Grafting.	
2. Splice Grafting.	
b. Root Grafting.	
C. By Cutting.	
a. Common Cutting.	
b. The "Kimaki" Method.	
c. The "Sudare-buse" Method.	
D. By Layering.	
a. The "Shumoku-dori" Method.	
b. The "Yoko-buse" Method.	
c. The "Karakasa-dori" Method.	
d. The Mound Layering Method.	
III. PLANTATION AND MANAGEMENT.	
IV. CULTIVATION.	
V. CROPS.	
VI. THE INJURIES TO THE MULBERRIES CAUSED BY DISEASES, INSECTS AND FROST.	
A. The Diseases of the Mulberries.	
1. The Mulberry Dwarf Trouble.	
2. The "Mompa" Disease.	
3. The Pourridie.	
4. The Agaricus Mellens.	
5. The Bacteria Disease.	
B. The Injurious Insects of the Mulberry.	
1. The Scale Insect of the Mulberry.	
2. Leafrollers.	
3. Hemelophira atrilineata Butl.	
4. Aprione rugicollis Chev.	
5. Slug.	
6. Field Mice.	
C. Frost Damage.	
CHAPTER VI. THE FEEDING OF SILKWORMS.	78
I. THE VARIETIES OF SILKWORMS.	
II. THE SILKWORM REARING HOUSE AND INSTRUMENTS.	
A. The Situation of the Silkworm Rearing House.	
B. The Direction of the Silkworm Rearing House.	
C. The Construction of the Silkworm Rearing House.	
D. Instruments.	
III. THE SILKWORM SEED OR GRAIN.	
A. Egg-card Making.	
B. Precautions with the Seed.	

IV. REARING OF THE SILKWORM.

- A. Brushing.
- B. Feeding.
- C. The Chopping of Mulberry Leaves.
- D. The Preservation of Mulberry Leaves.
- E. The Extension of the "Silkworm-Bed."
- F. Litter-clearing.
- G. The Protection of Silkworms after Moulting.
- H. The Temperature and Humidity of the Rearing Room.
- I. Application of Fire.
- J. The Mounting of the Silkworm.
- K. The Protection of Silkworms after Mounting.
- L. The Gathering of the Cocoons.

V. DISEASES OF SILKWORMS.

- 1. Pébrine.
- 2. Grasserie.
- 3. Muscardine.
- 4. Flacherie.
- 5. The "Uji" Disease

CHAPTER VII. MANUFACTURE OF RAW SILK. 132

I. REELING METHODS.

- 1. Hand-reeling (*Te-guri*).
- 2. Sedentary reeling (*Za-guri*).
- 3. Foot-reeling (*Ashi-bumi*).
- 4. Machine-reeling.

II. MACHINES AND INSTRUMENTS.

- A. Reeling Machines and Instruments.
 - 1. The Frapping Reeling Instrument (*Dō-tori-kikai*).
 - 2. The Hand-reeling Instrument (*Teguri-kikai*).
 - 3. The Sedentary reeling Instrument (*Za-guri-kikai*).
 - 4. The Foot-reeling Machine (*Ashi-bumi-kikai*).
 - 5. The Reeling Machine.
- B. Re-reeling Machines and Instruments.
 - 1. The Re-reeling Instrument by Pulling (*Sha-kuri*).
 - 2. The Hand Re-reeling Machine (*Temawa-shi*).
 - 3. The Re-reeling Machine.
- C. Cocoon Drying Chamber.

III. THE COCOONS.

- A. Handling.
- B. Stifling.
- C. Drying.
- D. Storing.

IV. REELING.

- A. Cooking.
- B. Discovering of the Filaments.
- C. Reeling.

	PAGE.
V. FINISHING AND PACKING.	
A. Re-reeling.	
B. Drying.	
C. Inspection.	
D. Dressing.	
E. Packing for Shipment.	
VI. WASTE SILK.	
A. Chappy Silk.	
B. Floss.	
C. "Do-hyō."	
D. "Furi."	
E. The Snapped Unreelable Part of the Cocoons.	
CHAPTER VIII. SALES OF RAW SILK.	166
I. "Dziyari."	
II. "Hama-uri."	
A. The Process of Consignment.	
B. The Process of Forwarding Raw Silk.	
C. The Process of Executing a Sale.	
D. The Examination of Raw Silk.	
E. Customs and Usages in Dealing.	
F. Charges for Effecting a Sale.	
G. Exporters and Dealers of Raw Silk.	
III. DIRECT EXPORT.	
A. The Modes of Direct Export.	
B. The Process of Shipping.	
C. Documentary Bills and Exporting Charges.	
D. Collection of Prices and Selling Charges.	
E. Direct Exporters at Yokohama.	
F. Amount of our Exported Raw Silk and its Destinations.	
CHAPTER IX. WILD SILKWORMS.	179
1. <i>Antherea yamamai</i> Guér-Mén.	
2. <i>Antherea pernyi</i> Guér-Mén.	
3. <i>Caligula Japonica</i> Moore.	
CHAPTER X. CONCLUSION.... ..	191
