CONTENTS

Prefatory Note
Editor's Preface
Author's Preface

PART I
PLAIN WEAVING

CHAPTER I
THE RUDIMENTS OF SPINNING AND WEAVING

CHAPTER II
THE INDISPENSABLE APPLIANCES FOR SIMPLE WEAVING
The Origin of the Loom—Looms in Ancient Art and Literature—Egyptian and Greek Looms—The Essential Part of the Loom—The Cross in the
CHAPTER III
THE WARPING BOARD

The Warping Board—The Necessity for Strength in all Weaving Appliances—The Warping Board in Use—Securing the Crosses in the Warp—Warping Several Threads at once—The Reel- or Bobbin-carrier, and its Use in connection with the Warping Board—The Portee Cross—Taking off the Warp—The Hand-stick

CHAPTER IV
THE WARPING MILL

CHAPTER V
TURNING ON, OR BEAMING

Turning on, or Beaming—The Raddle, or Vateau—Selection of a Raddle for a particular Warp
Cane Roller and Cane Sticks—The Raddle Stand for Small Warps—To separate the Perforaes—Distributing the Perforaes in the Raddle—Turning on in the Loom—Position of the Cane Roller in the Loom—Means of turning the Roller—Assistance required in turning on—Method of keeping the Warp Hard on the Roller

CHAPTER VI
THE BEAMING DRUM

CHAPTER VII
THE HAND-LOOM FOR AUTOMATIC WEAVING
Opening or shedding the Warp for Wefting—Shedding the Warp without Appliances—Simplicity of Egyptian and Greek Weaving—The Headle-rod—Ancient Horizontal Looms and Automatic Sheds—Indian and Chinese Looms—The Old English Hand-loom—The Loom Frame—The Rollers—The Ratchet and Wheel—Friction Brake for Cane Roller—Comparison of Indian and English Looms—Automatic Method of opening the Shed—The Long Comb or Reed—The Batten—Position of the Harness and Batten—Preparations for entering the Warp in Harness and Reed—Gating the Loom
CHAPTER VIII
THE ACCESSORY APPLIANCES OF THE LOOM

PART II
SIMPLE PATTERN-WEAVING

CHAPTER IX
TAPESTRY-WEAVING

A Definition of Pattern-weaving — Ancient Textile Decoration — The Origin of Tapestry-weaving — Tapestry a Variety of Plain Weaving — The Effect of tight and loose Wefting — Tapestry-weaving necessarily an Artistic Handicraft — Tapestry akin to Embroidery

CHAPTER X
THE SIMPLEST WARP AND WEFT EFFECTS OF PATTERN

Further Definition of Pattern-weaving — Patterns possible on the Loom with only Two Heads — The Striped Webs of India — Ancient Use of Striped Cotton Hangings — Patterns resulting from striping the Warp — East African Woven Design — Various

**CHAPTER XI**

**SINGLE-HARNESS PATTERNS**

Ruled Paper and its Uses—Sketches of Entering and Tie-up—Designs possible on a Loom with few Headles—The Position of Cloth in Weaving—Tying up the Loom—Plan of a Tie-up—Simple Twills—The Broken Twill, its Importance—Origin and Peculiarly of Satin-weaving—The Four-headie Twill—Method of drawing Designs for Simple Looms—Simple Pattern with Tabby Ground throughout, its Advantages

160

**CHAPTER XII**

**THE SATINS AND DOUBLE CLOTH**

Construction and Utility of Satin Tie—Meaning of the Term Satin—Peculiar Quality of the Satin Tie—Various Satins and the Number of Headles required for weaving them—Reasons for weaving Webs Face Downwards—Exceptions—The Selvages of Satin and other Webs—Separate Selvages and their Fitting up—When Separate Selvages are necessary—Contrast of Colours in Satin Webs and its Limits—Double Cloth, its Advantages—Preparing and entering the Warp for Double Cloth—Weaving Double Cloth

179
CHAPTER XIII

SHEDDING MOTIONS

The Simplest Shedding Motion—Two Typical Shedding Motions—Differences between the Two Kinds of Shedding Motions—Choice of Shedding Motion left to Weaver—Suitable Design for Shedding Motion No. 2

CHAPTER XIV

DOUBLE-HARNESS PATTERN-WEAVING

CHAPTER XV

AUTOMATIC MACHINES FOR SHEDDING MOTIONS

Automatic Shedding Motions and their Use—Disadvantages of the Jacquard Machine for Home Weaving—Comparison of it with Simpler Machines
PART III

COMPLEX PATTERN-WEAVING

CHAPTER XVI

THE DRAW-LOOM AND THREAD MONTURE

CHAPTER XVII

THE SHAFT MONTURE

Invention of the Split or Shaft Harness—The Comber-board for Shaft Harness—Building a Shaft Harness—Description of Various Parts of the Harness—The Shaft Harness in Use—Note on regulating the Length of Designs—Draughting Designs—Examples of Shaft-harness Weaving
CHAPTER XVIII
BROCATTELLE AND TISSUE WEAVING

CHAPTER XIX
THE COMPOUND MONTURE
Advantages of dividing the Monture—Description of the Compound Monture—Examples of Compound Monture Weaving—Old English Brocade—Eighteenth-century Striped Brocade—French Late Seventeenth-century Brocade 308

CHAPTER XX
FIGURED-VELVET WEAVING
File and Terry Figured Velvet—The Draught—The Monture—The Preparation of the Loom—The Bobbin Frame—Italian and Spanish Velvets 320

CONCLUDING NOTE 322
GLOSSARY 325
INDEX 331
