

*l'Industrie des Tules & Dentelles Mecaniques 1815-1900*; Henon, Henri 1900

Title Translation: The Industry of Machine-made Nets and Laces 1825-1900

Review: This large book traces the history of machine-made lace in Calais from the early part of the 19th to the beginning of the 20th century. It is written as a sort of diary, year by year, and lists manufacturers, inventors, medal winners, international expositions, and ends up with a very interesting section on the construction of various lacemaking machines.
