Now Ready

Bound Volumes of the Priscilla Fancy Work Instruction Books

Hundreds of thousands of Needleworkers have purchased the paper-covered Priscilla Instruction Books, and have been thoroughly delighted with their clear, simple instructions for various kinds of Fancy Work.

However, there has long been a demand for these books in a more substantial form so that they could be added to home libraries and withstand the hard usage given books of reference.

In response to this demand, we now offer you the entire set of Priscilla Instruction Books, handsomely and durably bound in red Law Buckram, with titles stamped in gold.

Price, $1.35 per Volume, Postpaid

Each volume contains four Instruction Books as follows:

<table>

</tbody>
</table>

Every book in the Priscilla Library is a genuine teacher. All the different stitches are fully described and explained, then in addition there are a multitude of illustrations showing stitches, details, motifs and finished pieces, all of which makes the work just as clear and simple for the beginner as for the expert needleworker.

Send your order for the volumes you wish at once as the first edition is limited.

No. 600. Cover of Filet, Embroidery, and Cluny Lace
(See page 28 for description; pages 38, 39, 40, and 41, patterns of Filet, Point de toile)
NETTING

NETTING has been done from time immemorial; the date of its invention is unknown. Specimens of netting are still to be seen among Egyptian relics, that are said to be three thousand years old, or even of still greater age.

It is easy to net, as the saying is, "when you know how"; the only art required is, in drawing up the loops, to have them all exactly the same size. But, simple as the operation is, it is difficult to describe. The best teacher would be a boy who has made his own fishing-nets with a longitudinal ball of twine for a netting-needle and a lath for a mesh-stick.

Equipment. — The tools for netting are few and easily obtained. Netting-needles, mesh-sticks, the ribbon-wound frame (Fig. 1) for stretching the net, and blunt-pointed tapestry needles for weaving or darning the net after it is stretched. A netting-needle is a long piece of steel with eyes in both ends, as is shown in Fig. 1. The needle is wound with the working-thread, somewhat after the manner of a shuttle; the thread is passed through the eyes to hold it securely. A needle should never be wound too full, or it will be hard to handle. A mesh-stick is needed also; these are of bone or ivory, and are either flat or round; the flat ones being especially adapted to the making of antique lace. Steel knitting-needles are often used for mesh-sticks when fine netting is to be made, when the meshes of the net are as small as ten to an inch. The finest netting-needle (No. 22) will not pass through the mesh easily, so one is obliged to use a long, fine darning-needle with as long a thread as can be easily manipulated. Practice will enable the worker to use a thread two or three yards long, and by means of the "weaver's knot" lengthen it indefinitely.

The circumference of the mesh-stick, whether round or flat, is equal to two sides of the mesh; the size of the mesh-stick decides the size of the netting-needle to be used. The needle filled with thread must go through the finished mesh, and that limits the size of mesh-stick that can be used with any given needle.

Mesh-sticks are numbered by the actual measure around the stick, as 3/8 inch, 5/8 inch, 3/4 inch, or 1 inch. The 3/4 inch corresponds very well with the "lead pencil" one often finds in directions. The 1-inch mesh-stick makes a mesh one-half inch square, and the same proportion is true of any other size.

Netting-needles are offered in six sizes: Nos. 12, 14, 16, 18, 20, and 22, No. 22 being the finest. It is somewhat longer, but in width is the same size as illustrated at Fig. 1. Any of the needles can be used with mesh-sticks 5/8 inch or larger; No. 16 needle is the largest that can be used with 3/4-inch mesh-stick.

Linen thread, spool or skein thread, is used for netting, principally, especially for square netting; but much of the circular netting is done with cotton spool thread. For the net a firmly twisted thread is to be desired, and with some stitches the same thread used for the net is best for darning or embroidery. This is true of Point de toile, while Point de reprise is very effective when soft linen floss or cotton floss is used for darning.

FIG. 1. MESH-STICK AND NETTING NEEDLE

FIG. 2. FIRST POSITION OF HANDS

FIG. 3. SECOND POSITION

FIG. 4. THIRD POSITION

(See page 4)

3
To Work Netting.—Netting is started from a foundation-loop, which may be discarded after the work is sufficiently advanced. Figure 2, showing the first position of hands, illustrates the manner of attaching this foundation-loop by means of a small cushion secured to a table; all that is required is a firm starting-point.

Take the mesh-stick in the left hand, between the thumb and forefinger, with the other fingers extended under the stick. The working-thread should be tied through the foundation-loop. Take the needle (filled with thread, whose end is tied through the foundation-loop) in the right hand. Pass the thread downward over the stick and throw it around the fingers in a loose loop, bringing it up on the outside of the fingers. Now lay the thread over the forefinger and under the thumb, towards the left, holding it tightly between the thumb and forefinger, as in Fig. 2, illustrating the first position of hands. Now bring the thread down again back of the hand and point the needle upward on the inside. Next pass the needle through the loose loop held around the fingers and under the mesh-stick; also through the foundation-loop and above the thread held by the thumb. Figure 3 shows this second position of the hands. Draw the needle up gradually until the thread forms a close loop over the mesh-stick. Gradually let go the thread held by the thumb (Fig. 4, third position of the hands), and draw the needle until the loop over the stick is held in place by a knot above the stick and on the foundation-loop. Only practice can teach how to do this. Do not allow the knot to tighten until the loop forms over the stick the exact size desired.

**Figure 5**.—To make a square of netting, as for antique lace, pull the stick out of the loop, use the loop for a foundation and work diagonally, making two loops in the first row, followed by three in the third row, etc., as appears in Fig. 7. Although the loops are made diagonally they can be pulled out to form perfect squares.

**Figure 7.** Netted Frame. (See page 5)

**Figure 6.** Foundation Loop, Circular Netting. (See page 5)

**Figure 8.** Netted Oblong. (See page 5)

**Figure 9.** Circular Netting (See page 5)

**Figure 10.** Circular Netting with Widening. (See page 6)
Another form of square netting frequently used as a foundation for Filet Brodé is known as the battlemented square. As many loops as are required for one side of the square are worked on a foundation thread. This thread will be easier handled if stretched from one point to another some distance apart rather than in a loop; it can be tacked to a windowsill or table. Work one plain row into these loops. Turn, omitting to work into the last loop of the previous row, and proceed thus, always skipping the last loop of the preceding row. This forms a triangle, which is now removed from the foundation thread. Place the last loop made on a support and join the working thread into the loop at the end of the first long row, and proceed as before, always skipping the last loop of each row until the square is finished.

**Figure 8.**—Oblong strips of netting (Fig. 8) are made in this way. Proceed as for the square filet described (Fig. 5), and work until there are two more stitches in the row than are required for the width of the oblong. To obtain the length necessary, work alternate rows, decreasing at the end of one, and increasing at the end of the other. When the length is sufficient, finish out the corner by decreasing at the end of every row.

**Figure 7.**—At Fig. 7 a portion of a framework of plain netting is shown, such as is used to surround a central square of linen. The work is begun at the corner, and the loops increased until there are two more than twice the number necessary for the breadth of the frame. The illustration is five loops broad, and will require twelve loops for the broadest part of each corner. Now work in half

**Fig. 11. Point de Toile, First Process**
(See page 6 and Fig. 13)

**Fig. 12. Point de Toile, Second Process**
(See Fig. 13)

**Fig. 13. Point de Toile, Completed**
(See Figs. 11, 12)
Make fourteen loops in the first row; then draw the thread up as tightly as possible, so as to form a ring, and fasten off. For the second row, fasten the thread to a loop and work one loop in each loop of the first row, using a small stick. To avoid fastening the thread anew for every row, make a loop over the thumb, as follows: Put the thread over the stick and fingers, and the needle through the loop, as usual, but before tightening the knot pull the stick out of the loop just made and make this loop exactly as long as the loop above. The completed circle is shown at Fig. 9. A second method of starting the circular netting is found on page 9. Figure 10.—To make a circular netting by increases, work six loops on the foundation-loop and draw up the ring. Make a row with one knot in the first loop and two in the second; repeat around. In succeeding rows make two knots in each of the previous increases; that is, increase by one loop. The cut shows the work in process.

As the net should be very tight and firm when being made, a metal frame should be used, and it should correspond in size and shape with the piece of work that is to be done. The frames are sold, wrapped with wadding and ribbon, all ready for the work to be attached. These frames are to be had in six different sizes: Nos. 10, 12, 14, 16, 18, and 20. No. 10 is 4½ inches square (inside measure); No. 12 is 4¾ inches; No. 14 is 6 inches; No. 16 is 6½ inches; No. 18 is 7½ inches; No. 20 is 8 inches. The frame must be selected fully as large, if not a little larger than the measure of the net when it is stretched to its utmost. The illustration (Fig. 14) shows clearly how the net is to be overcast into the frame. If one has not the frame of suitable size, a larger frame can be made to serve as well; if the overcasting stitches are longer they will hold as securely. The beauty of the work consists in the perfect evenness and uniformity of the net, and of each individual mesh of which it is composed.

Figures 11 to 14 inclusive—Figure 14, shows the frame with net overcast in place and weaving begun. The first stitch given is "Point de toile," linen stitch, or weaving.
Fig. 16. Point de Reprise. (See page 8)

Fig. 20. Étoile, Completed. (See Figs. 18, 19)

Fig. 21. Brides and Rosettes. (See page 9)
back and forth only once.

Figure 15.—Any design must be carefully studied before beginning, to decide in which direction to proceed. Figure 15 makes a good study. After tying the thread to the mesh, leaving a few inches to be fastened afterward, the needle (with blunt point) passes invariably over a thread and under a thread, whether in a straight line or turning around a corner of mesh (see needle, Fig. 13) or turning straight back to fill the mesh with the second thread or crossing these with two rows of weaving. Every effort should be made to connect the design where possible, but it is allowed to carry the thread to an isolated mesh, or a small bit that is not connected with any part of the design, by overcasting along the meshes between; but even in this carrying the thread, the rule of "over one and under one" still holds.

Figure 16.—The stitch known as "Point de reprise," stitch it might be called. Figure 11, page 5, shows the first process, darning back and forth; Fig. 12 shows the second process; and Fig. 13 shows completed stitch. In the first two illustrations the meshes are large and the darning back and forth is repeated, making four threads each way; in the completed work, Fig. 13 and Figs. 14 and 15 on page 6, the thread is woven.

Fig. 22. DENTS, POINT DE REPRISE. (See page 9)

Fig. 26. FEUILLES, POINT DE REPRISE (See Fig. 27 and page 9)

Fig. 27. FEUILLES, POINT DE REPRISE COMPLETED. (See Fig. 26)
or "darning stitch," is shown at Fig. 16; filling over and under with ordinary darning, describes this stitch. Upon the size of the mesh and thread depends the number of times the thread is carried back and forth; the mesh should be well filled.

Figure 17 is known as "Point d'esprit," and the first and second processes are clearly shown in the illustration.

Figures 18, 19, and 20 give first and second processes and completed figure of "Étoile" or "Star."

Figure 21.—"Brides with Rosettes" of simple and alternate weaving are given at Fig. 21. By carefully noting the work of each needle, it can be readily understood.

Figure 22.—In Fig. 22, which is called "Dents"—Point de reprise, the "tooth" is made by drawing a thread from the corner of a mesh to the middle of the opposite side, back to the adjacent corner of the same mesh, back to the middle again, then darned in Point de reprise.

Figure 23 is another "Étoile" made with "Point de feston" or "buttonhole-stitch." One buttonhole-stitch is made each time across the base of the points, and two buttonhole-stitches together up each side line.

Figure 24 is a good example of "Coins"—Point de reprise. The "Brides," or twisted bars, are placed first, then the darning extends back and forth around five threads at each "corner."

Figure 25 is called "Filet Serti." A fine instance of this is to be found in the grape-leaves of No. 619, page 24. If the thread that "surrounds" these corners is heavier than the weaving thread, it is called "Filet Richelieu."

Figures 26 and 27 are "Feuilles"—Point de reprise. The foundation threads are drawn and the darning of the "leaves" is made over two groups of threads in one leaf and over three groups in the other. This work is sometimes called "Guipure."

Figure 28, shows Point de toile completed and embroidered "Point de poste," in process and completed.

Figure 29 is Border of "Point de feston"; any straight or battlemented border or edge of points along a diagonal may be finished with buttonhole-stitch after two or more threads of darning strengthen the outline.

Figure 30—Additional directions are offered for a practical foundation for Circular netting (see Fig. 30); a foundation one can use indefinitely without the work of setting up each piece. There are difficulties to overcome in setting up around the border, and the fact of using the same foundation for any number or pieces makes it desirable. The rough or uneven appearance near the beginning shows where dozens of doilies have been cut off.

Sew up a small strip of muslin and hem both ends; in the edge of one hem cut several
slots, into this hem run a cord, bringing it up through every slot; now tie all the loops together (thread three or four inches long from edge of muslin to knot), and drop it over the head of the clamp which holds the embroidery hoops. This, attached to a low table, will hold the work very firmly, and the loops coming at intervals from the muslin, the work will pull evenly. Begin the work by netting into the lower hem of the muslin, making the first row with a sewing or darning needle. Net two or more rows before beginning the piece; these rows can be made with any size mesh-stick at hand, steel knitting-needles of various sizes are nearly always sufficient for all fine netting. When the piece is finished cut it from the foundation as many squares from the first row as it requires; with a pin pick off the superfluous knots and gather it up on a bit of the netting thread.

Number 601. Lace — This is a bit of linen lace made of linen thread No. 25, five meshes to an inch, with mesh-stick 3/4 inch or slightly larger, and netting-needle No. 16 or 18. The piece is about 7 inches long and 2½ inches wide. Two stitches are used, Point de toile woven with the same thread as the net, and Point de reprise darned with a soft linen floss.
Number 602. Centre-piece.—This linen centre-piece is embroidered lavishly with French work, Hedebo, and Reticella, and inserts of Filet. It measures 36 inches in diameter, the Filet inserts are 3½ inches square and 4½ inches square. There are four of the former, (27 meshes square), all of the same design; in the eight larger squares there are two different designs (37 meshes square). The three designs are given at Figs. 44, 47, and 48, page 17. The number of designs used could be varied according to the taste of the worker; the only limitation is the space allowed by the embroidery design. The design for the lace edge is given at Fig. 46, page 17.

Number 603. Doily.—This is a very old piece of Filet. It is diagonal net, which differs from square or circular in that the meshes of one side or end are made on a cord, preferably stretched from one point to another. This piece is about 49 meshes wide, with about 75 rows. The design is done in Point de reprise. Along the edge the scallops are made in

No. 603. A Very Old Piece of Filet.

No. 604. Doily Embroidered in Point de Toile and Point de Reprise. (See page 12)
circular netting; half of a centre is netted into one mesh and plain netting back and forth forms the scallop.

Number 604. Doily.—This doily is about 7 inches in diameter. It is woven and darned with the stitches of No. 601, page 10, and the outer edge is buttonholed after the edge is woven. While the cut is not quite actual size, yet it is large enough to copy without a block pattern. A little caution might be given, since there are several slight inaccuracies in the weaving. This is often found to be the case in much of the old work; it does not detract from its beauty, but one may be misled if they begin to follow the pattern, taking for granted that all four figures are exactly alike. The corrected pattern is given in Priscilla Filet Crochet Book, No. 1, Fig. 43, page 22.

Fig. 32. Detail of Fig. 31. Point de Reprise and Point d'Esprit

Fig. 31. Filet Band with Corner. (See Fig. 32 and page 13)
Figure 31. Border. — This handsome border, with corner, is suitable for curtains, or for any purpose requiring a band and corner. From the detail, Fig. 32 (which is actual size), it will be seen that the net is 9 meshes to an inch. The band is 50 meshes wide and requires 84 meshes in length for one repeat of the pattern; this repeat is from A to B, then the corner design is completed, and at AA the repeat is started again. The stitches employed are Point de reprise and Point d’esprit. The design is shown so distinctly in the work that a block pattern is not necessary.

Figures 33 and 34. Initials. — Figure 33 gives an initial in Point de toile, with net and weaving both of No. 60 spool linen thread. The initial below.

Fig. 33. Initial Letter 33 Meshes High (See page 43)

Fig. 34. Initial Letter 33 Meshes High (See page 42)

No. 605. Scarf. (See pages 14, 45, and 48)
Fig. 34, is made, both net and weaving, of No. 60 lace thread. They are suitable for towel inserts, the thread and work being heavier than most of Filet. The letters are 33 meshes high, and from the alphabet, Fig. 98 on pages 42 and 43.

Number 605. Scarf. — This scarf is about 1 1/4 yards long and 13 inches wide. Four Filet squares (53 meshes) are combined with thirteen hemstitched, embroidered panels and ten square medallions of Cluny. The Filet squares measure 6 5/8 inches, the patterns of which are given at Figs. 103 and 104, page 45, and Figs. 113 and 114, page 48. The thirteen linen panels are finished 6 5/8 inches by 3 3/16; the ten Cluny squares measure 3 3/16 inches. In all such pieces as this, the net should be made first, the required number of meshes for the design; the linens finished to correspond in length with the net, and in width with the Cluny. A little variation in making the net is allowed if the linen panels are finished afterward the same measure.

Number 606. Cushion. — This cushion of embroidered linen and two Filet inserts is 18 inches square, and the Filet inserts (48 meshes) are 5 inches square. The pattern is Fig. 112, page 47.

Number 607. Scarf. — This piece is 1 1/4 yards long and 26 inches wide. It is of linen, embroidered in eyelet and ladder work, with eight Reticella medallions and eight Filet inserts (27 meshes) each 3 1/2 inches square. Four designs (each used twice) are found at Figs. 35, 36, 37, and 39, page 17. The edge is Filet lace, pattern at Fig. 42, page 17.

Number 608. Cape Collar. Materials. — Linen
spool thread, No. 90; knitting-needle, medium size; small (1/8-inch) and medium (5/8-inch) mesh-sticks. The knitting-needle will be designated as "needle," and the mesh-sticks as "small" and "medium." On foundation thread net 134 stitches over small mesh-stick. 2d and 3d rows—Plain netting over needle. 4th row—Plain, over medium mesh-stick. 5th to 8th rows, inclusive—Plain, over needle. 9th row—Over small, net 2 in each. 10th row—Over needle, net 2 together. 11th row—Over small, net 2 in each. 12th to 16th rows, inclusive—Plain, over needle. 17th row—Over small, net 2 in each. 18th row—Over needle, net 2 together. 19th row—Over needle, plain. 20th row—Over small, net 2 in each. 21st row—Over needle, net 2 together. Seven rows (22d to 28th, inclusive)—Plain, over needle. 29th row—Over medium, net 2 in each. 30th row—Over needle, net 2 together. 31st and 32d rows—Plain, over needle. 33rd row—Over medium, net 2 in each. 34th row—Over needle, take up 2 together. Eight rows (35th to 42d, inclusive)—Plain, over needle. 43rd row—Plain, over medium. 44th row—Over medium, make spider-stitch as follows: * Take up the 2d stitch and net, then take up the 1st stitch and net *; repeat. Eight rows (45th to 52d, inclusive)—Plain, over needle. 53rd row—Over medium, net 2 in each. 54th row—Over needle, * first take up 1 stitch, then take up 2 stitches together *; repeat. 55th and 56th rows—Plain, over needle. 57th row—Over small, net 1 stitch in every alternate mesh. 58th row—Over small, omitting the same mesh and netting 2 in the next mesh. 59th and 60th rows—Over needle, omitting the same mesh each time.

For the standing collar of No. 608 use small-size darning-needle to take up the stitches around the neck; first take up 1 stitch and then take up 2 stitches together; repeat throughout the row. 2d row—Plain (net with the darning needle over the knitting-needle). 3d row—Plain, over small, 4th and 5th rows—Plain, over needle. Then follow two bands of Rose netting (4 rows of work). The first of these 4 rows is plain, over small mesh-stick. 2d row—Over needle in this way: * Draw the first stitch through the second and net it; then draw the second through the first stitch and net it *. (These two rows are the 6th and 7th rows.) 8th and 9th rows—Repeat the 6th and 7th rows. 10th row—Plain, over needle. Bring to a point by omitting the same mesh in each row, over the knitting-needle. Darn as illustrated.

Number 609. Round Yoke. Materials.—Linen spool thread, No. 70; steel knitting-needle, No. 12:

No. 607. Scarf. (See pages 14 and 17)
small (3/8-inch) mesh-stick; and small darning-needle.

The straight collar of this yoke is made in square netting, over knitting-needle. Follow directions for Fig. 8, page 4, making the strip 20 meshes wide, or about 2 1/2 inches high, and as long as the required measure. When completed, run foundation thread the length of the collar and without breaking the thread, net 1 in every other stitch at the bottom of the collar, and net 2 in the alternate stitches. This is done over the knitting-needle used for the collar. Make 5 plain rows over needle. 7th row—Over mesh-stick, net 2 in each loop. 8th row—Over needle, net 2 together. Make 8 rows plain, over needle, 17th row—Over mesh-stick, net plain. 18th row—Over mesh-stick, make a row of spider-stitch, which is done by first netting the second loop and then the first, net the fourth and then the third, etc. 19th to 23d rows, inclusive—Plain netting over needle. To give a firm thread at the bottom of the yoke, net one row over a small darning-needle. Darn the figures as illustrated.

Number 610. Centrepiece.—This piece is 16 inches square. The net is 51 meshes square; if it is made one or two meshes larger all around (perhaps 55 meshes square), it will be easier to finish the edge. At least five different stitches are used in the embroidery—Point de toile (6 threads in each mesh), Point d'esprit, Serti, Rosettes, and Feuilles or Guipure.

Fig. 47. 37 Meshes  
(See page 10)

Fig. 48. 37 Meshes  
(See page 10)

Fig. 49. 13 Meshes  
(See page 19)
The net should be well stretched in a frame before beginning these stitches. After this is completed, Point de feston (buttonhole-stitch) is finished around the edge and the superfluous meshes cut away. In the net there are 3½ meshes to an inch, or 10 meshes to 3 inches. The mesh-stick should be ⅜ of an inch, and netting-needle No. 14 or 16. Number 40 linen lace thread is used for the stitches, and the same thread of a mesh, where it is necessary to leave the needle at the opposite side of the mesh, then five threads complete the weaving.

Number 611. Centrepiece.—This centre is 26 inches in diameter, embroidered in eyelet and ladder work. One 3-inch insert of Filet is used. For this a 3½-mesh net and 27-mesh initial may be substituted, or the

---

No. 610. Filet Centrepiece. (See page 16)

(or perhaps No. 35) for the net, as may be preferred.

It is rarely one finds as nearly perfect a piece of work as this beautiful centrepiece; the net is made with the utmost precision, and the stitches are exquisitely placed, with the same precision and uniformity. In the Point de toile, six threads are woven in each mesh; the large meshes require more weaving than smaller meshes where the rule is two threads each way in a mesh. There is an exception at the corner design Fig. 40, on page 17, may be used. A square somewhat larger would not crowd the eyelet-work of the stamped-linen. The edge is of Cluny, but might be made of Filet lace like that of No. 612.

Number 612. Centrepiece.—This is 26 inches in diameter. There are four Filet inserts, each 3 inches square; these may be made like the illustration, 11 meshes to 3 inches and woven in pattern Fig. 50.
page 17, or a 31-mesh net (10 to an inch) with any preferred designs may be substituted. One initial and three different designs are suggested. The border is made in the same manner as the lace on page 10, and woven with pattern Fig. 38, page 17. It should be held slightly full in sewing on.

Number 613. Centrepiece.—This is of square and circular netting. Materials.—Number 40 linen spool thread; No. 12 knitting-needle; 3/, 5/, and 7/ mesh-sticks (called “small,” “medium,” and “large”); netting - needle No. 16.

Net 25 stitches on foundation thread; widen in last stitch of each row, by netting in 2 stitches, until there are 75 meshes across. Net 25 rows without any widening. Now narrow by netting the last two stitches of each row together until there are 25 meshes left.

This completes the octagon net; it is now ready for the border, which is made as follows: 1st row—Net 1 stitch in each mesh, over knitting-needle, except at the corners, where 2 should be netted in the same mesh to give needed fulness. 2d, 3d, and 4th rows—Like the 1st row. 5th row—Net 1 stitch in each mesh, over medium mesh-stick. 6th row—Net 2 together over small mesh-stick. 7th row—Over medium, net 2 in every mesh. 8th to 12th rows, inclusive—Over needle, net plain. 13th row—Over medium, net 2 stitches in each. 14th row—Over needle, net 2 together. 15th to 28th row, inclusive—Over needle, net plain. 29th row—Over large mesh-stick, net 4 stitches in every other mesh. 30th row—Over needle.
work, Reticella medallions, and eight Filet inserts. Four designs (two of each are made) are given at Figs. 35, 34, 39, and 41, page 17. The lace border is netted as No. 607 and embroidered as Fig. 42, page 17.

Number 615. Centrepiece.—A centre of linen, narrowly hemmed, 13 inches in diameter, and 22 rounds of circular netting (making a border 31/2 inches wide), combine to make this very handsome centrepiece.

Materials.—One ball crochet cotton, No. 100; 3 skeins embroidery cotton, letter F; 2 mesh-sticks, the larger 1 inch, smaller 31/8 inch; medium-sized steel knitting-needle, and one slightly smaller; a very small netting-needle for the finest work, and one of medium size, No. 16 or 18, for the heavy thread. The two mesh-sticks will be designated as "large" and "small," the knitting-needles as "large needle" and "small needle."

Prick, with a large pin, tiny holes all around the edge of the hem, three-eighths of an inch apart. Net the first round of plain netting into the hem (where it has been pricked), over the small mesh-stick. A sewing-needle is necessary for this round. For the 2d round the embroidery cotton is used double, the netting-needle being filled by winding from two skeins at once, care being taken to wind it very evenly. Over small mesh-stick, net 2 in each one of the 1st round. 3d, 4th, and 5th rounds.—Plain netting, with the thread, over large needle. 6th round.—Net over the same needle thus—put the thread around the needle twice and net in the first loop, then make 2 single stitches (thread around the needle once) in the same loop; repeat in every second loop. 7th and 8th rounds are made like 6th round, netting into each long loop, leaving the small loops free. 9th round—Over the large needle, net 2 stitches in each mesh. 10th and 11th rounds.—Plain netting, over large needle. 12th round.—With the inch mesh-stick and double embroidery cotton, net plain. 13th, 14th, and 15th rounds.—Net plain, with thread, over large needle. 16th round.—Net plain, with double embroidery cotton, over small mesh-stick. 17th round.—With thread, over large needle, net 1 stitch into the second loop.
pass the first loop at the back of the second and net it; repeat around. 18th and 19th rounds—Plain, over large needle. 20th round—With double embroidery cotton, net 6 stitches into every fourth loop around the centrepiece, 21st and 22d rounds—Net plain, with the thread, over the small needle. Baste the work, wrong side up, on a piece of stiff paper and with a needle and cotton catch the long loops of 12th round together in groups of four, tying them as in drawn-work. Care must be taken to leave the cotton loose enough between the groups to prevent the work from drawing when removed from the paper.

If a smaller centrepiece is wanted, use a smaller linen centre. Dainty doilies may be made to match this centre by using the first 5 and the last 7 rounds. Another style may be made by using the first 8 and the last 3 rounds. Still another by using 1st, 9th, 10th, 11th, 12th, 13th, 14th, 15th, and last 3 rounds.

Number 616. Table-Cover—This beautiful piece is 1 1/2 yards square, with a border of Filet lace 4 1/2 inches wide.

The cover is composed of 36 Filet squares, each 7 1/2 inches. Six designs and six repeats of each design are used; the six designs are given on page 23. These are 25-mesh squares, embroidered with the stitches explained in the preceding lessons; the illustrations on page 23 are large enough that the stitches may be copied without further directions. Any other arrangement of the squares may be made. The mesh is 3 10 of an inch, requiring a mesh-stick 3 5 of an inch in circumference; a 5 1/2-inch mesh-stick is the nearest that measure, the difference being only 1 40 of an inch. The netting-needle should be No. 14 or 16, or any size.
smaller; and the thread No. 25 linen lace thread. The border is 15 meshes deep and the pattern 10 meshes long, alternating a rose and a star; the edge is solid with Point de toile and the ground of border is filled in with Point d'esprit.

**Number 617. Lace for Altar Cloth.**—This beautiful piece of Filet is embroidered entirely in Point de reprise. The net is 3 yards and 6 inches (387 meshes) in length, and 12 3-5 inches (63 meshes) deep; made of very heavy thread (No. 25 linen), 5 meshes to an inch, and requires a mesh-stick 2-5 or 3-5 of an inch.

The centre panel (on page 21) is the centre panel of the whole; three panels—"rose," "heart," "rose"—follow at each side, and the centre panel is repeated; then "rose," "heart," "rose" again, with the centre panel at each end, making 17 panels in the whole.

3 meshes to an inch, or rather 13 meshes to 4 inches requires a mesh-stick 5-5-inch and netting-needle No. 14.

The fragment given in the illustration shows the third and fourth row of "stars" from the top. The background is filled with Point d'esprit. From the top down there are 4 rows of background; 1st row of stars (6 meshes apart); 9 rows of background; 2d row of stars; 8 rows of background; 3d row of stars; 8 rows of background; 4th row of stars. A detail of

**Number 618. Border for Alb.**—This is a piece of wonderful beauty. The net measures 3 yards and 20 inches by 42 inches (392 meshes by 128 meshes),

No. 616. Table Cover of Filet Brodé. (See pages 21 and 23)
Figs. 52 to 57 inclusive. Squares of Filet Brodé. (See Table Cover on page 22)
No. 617. Lace for Altar Cloth. (See pages 22 and 41)

No. 618. Border for Alb of Filet Brodé. (See Fig. 58 and page 22)
the grapes and leaves is given on this page. The grapes are “Rosettes” with “Brides,” the leaves are filled with Point de toile, beautifully rounded with Filet Serti and veins of Guipure.

**Number 619. Centrepiece.**—This centre is about 25 inches square. Two Filet squares 10¾ inches (63 meshes) ; two hemstitched embroidered linens the same size; one hemstitched, embroidered linen, finished 4 inches square; and four Cluny panels, 10½ inches long and 4 inches wide, are combined in this centrepiece, and finished with a Cluny lace edge. The design of the Filet is given at Fig. 69, page 33.

**Number 620. Centrepiece. Materials.**—Number 00 linen thread; a small
darning-needle; the smallest netting-needle (No. 22); a fine knitting-needle; medium-size knitting-needle; and ¾-inch mesh-stick. The last three will be designated as “fine needle,” “medium needle,” and mesh-stick.

Use a strong thread for foundation loop. 1st round—Over medium needle, net 32 stitches in foundation loop. 2d round—Net 2 together, over darning-needle. 3rd round—Over medium needle, net 4 in each. 4th round—Over small needle, net 3 together. 5th round—Over small needle, net 2 in each. 6th to 10th rounds, inclusive—Over same, net plain (1 in each loop). 11th round—Over mesh-stick, net 2 in each. 12th round—Over mesh-stick, net 2 together. 13th round—Over mesh-stick, net 4 stitches in each. 14th to 19th rounds, inclusive—Over small needle, net plain. 20th round—Over mesh-stick, net plain. 21st round—Over mesh-stick, this round is in spider-stitch, which is made by netting the 2d stitch, then the 1st, the 4th, then the 3d, all around. 22nd to 25th rounds, inclusive—Over small needle, net plain. 26th round—Over mesh-stick, net plain. 27th round—Over same, net 3 loops together. 28th round—Over same, net 4 in each. 29th to 34th rounds, inclusive—Over small needle, net plain. 35th round—Over mesh-stick, net plain. 36th round—Over same, net 3 together. 37th round—Over small needle, in Vandyke stitch, which is made by putting the thread twice over the needle and netting 1 stitch, then netting twice more in the same loop.
with thread over once as usual. 38th and 39th rounds—Like 37th round, netting in the long loop of the previous round. 40th round—Over mesh-stick, net 5 in each. 41st to 48th rounds, inclusive—Over small needle, net plain. 49th round—Over mesh-stick, net plain. 50th round—Over mesh-stick, spider-stitch, like 21st round. 51st to 57th rounds, inclusive—Over small needle, net plain. 58th round—Over mesh-stick, net plain. 59th round—Over mesh-stick, netting in the long loop of the previous round. 60th to 63d rounds, inclusive—In Vandyke stitch, like 37th to 39th rounds. 64th round—Over mesh-stick, net 5 in each. 65th to 66th rounds, inclusive—Over small needle, net plain. For the border, continue to use the small needle and form the points by omitting every 13th stitch in the 1st round of the border. Omit the same stitch in every round, leaving the thread between a little longer each time. Do this until the points are reduced to one loop.

When done, draw the stitches—on the foundation thread as close as possible and tie securely.

Number 621. Doily. Materials.—One spool linen thread, No. 50; embroidery floss; letter E or F; 3/4-inch mesh-stick; large knitting-needle; netting-needle No. 20 or 22. Net, over mesh-stick, 44 stitches into foundation loop. Net 10 rounds plain, over needle. 12th round—Net, over mesh-stick, into every other loop, netting 5 in 1st, 4 in 3d, 5 in 5th, 4 in 7th, alternating between 5 and 4 all around, and omitting the 2d, 4th, 6th, etc., stitches. Net 10 rounds plain, over needle, then finish off 9 points and darn with embroidery floss, in Point de reprise, as illustrated.

Number 622. Doily. Materials.—One spool thread, No. 50; fine netting-needle (No. 22); 3/4-inch mesh-
stick; large knitting-needle; embroidery floss, letter E. Net 40 stitches over mesh-stick into foundation loop. Net 5 rounds plain, over knitting-needle. 7th round—Over mesh-stick, net into every other loop. 8th round—Over mesh-stick, net 4 in each. The next 9 rounds, net plain, over needle. 18th round—Over mesh-stick, net in every other loop. 19th round—Over mesh-stick, net 4 in each. The next 10 rounds, over needle, net plain. 20th round—Over mesh-stick, net 4 in each. The 10 rounds following, over needle, net plain. Then finish with the points, which are made by netting back and forth, leaving the last stitch each time until but one remains. Thirteen points can be made by adding 5 stitches in the 40th round, which otherwise would have 320 meshes; 14 points can be made by adding 2 stitches in the 40th round. The design is darned with embroidery floss in Point de reprise.

**Figure 59.** Edging.—Three mesh-sticks are required—small (3/8-inch), medium (5/8-inch), and large (3/4-inch); and No. 16 or 18 netting-needle. Seven rows are netted plain, over me-

---

**Figure 60.** Edging.—Use the same mesh-sticks
and needle as for Fig. 59. Net on a long foundation cord, or into linen centre. Medium mesh-stick is used, except where noted. Five rows of plain netting.

6th row—Net plain in first stitch, net 4 in every second stitch. 7th row—Net 2 of the 4 loops with loop at the left; net the other 2 with the loop at the right. 8th row—Like 6th row, netting groups of 4 between groups above. 9th and 11th rows—Like 7th row. 10th row—Like 6th row. 12th row—Over large mesh-stick, net 4 in the loop beneath two groups above, skip 1. 13th row—Over small mesh-stick, net plain.

Number 600. Cover of Filet, Embroidery, and Cluny. (Frontispiece).—Twelve blocks of Filet, 13 blocks of linen, hemstitched and embroidered with Hedeho and Reticella, a border of Cluny and edge of Filet lace, compose this beautiful cover. The Filet blocks are about 7 inches; for these the patterns (63 meshes) are given at Figs. 87 to 95, inclusive. The embroidered blocks are finished the same size. The edge is made in the same way as No. 601, page 10, and the block pattern is Fig. 96, page 40. Upon the exact size of the Filet blocks depends the whole size, as the size of the linens can be varied to match the Filet. About a yard square is the measure of the piece inside the Cluny border.

The following four pieces comprise a set of doilies, 7½, 11, 15, and 20 inches in diameter. Materials.—Number 40 or 50 Cordonnet; medium knitting-needle and % inch mesh-stick; and No. 22 netting-needle.

Number 623. Doily.—On foundation loop, net 20 stitches over mesh-stick 2d, 3d and 4th rounds—Over needle, net plain. 5th round—Over mesh-stick, 3 in each. 6th, 7th, and 8th rounds—Over needle, net plain. 9th round—Over mesh-stick, 2 in each. 10th round—Over needle, net 2 together. 11th
round—Over mesh-stick, net 3 in each. 12th to 15th rounds, inclusive—Over needle, net plain.

Border. 1st round—Over mesh-stick, net in every alternate loop. 2d round—Over mesh-stick, 5 in every alternate loop. 3d round—Net plain, use needle to the end. 4th round—Net 4 in group of 5, skip 1. 5th round—Net 3 in group of 4, skip 1. 6th round—Net 2 in group of 3, skip 1. 7th round—Net 1 in 2, skip 1. This brings the "pineapple" to a point. This doily is 7½ inches in diameter.
Number 624. Doily.—Net 20, on foundation loop, over mesh-stick. 2d, 3d, 4th, and 5th rounds—Over needle, net plain. 6th round—Over mesh-stick, 3 in each. 7th to 10th rounds, inclusive—Over needle, net plain. 11th, 13th and 15th rounds—Over mesh-stick, 2 in each. 12th and 14th rounds—Over needle, net 2 together. 16th to 19th rounds, inclusive—Like 7th round. 20th round—Over mesh-stick, net plain. 21st round—Over mesh-stick, spider-stitch (net 2d, then net 1st). 22d to 25th rounds, inclusive—Like 7th round. 26th round—Over mesh-stick, 2 in each. 27th to 30th rounds, inclusive—Like 7th round. This makes the band of close netting. 31st round—Over mesh-stick, net plain. 32d round—Over needle, net 2 together. 33d and 34th rounds—Like 27th round. 35th round—Over mesh-stick, net plain. 36th round—Over needle, Rose netting (see page 15). 37th and 38th rounds—Like 35th and 36th rounds. 39th and 40th rounds—Like 27th round. 41st round—Over mesh-stick, 2 in each. 42d, 43d and 44th rounds—Like 36th round. Border like that of No. 623. This is 11 inches in diameter.

Number 625. Doily.—Follow directions for 11-inch doily, No. 624, for 25 rounds; that is, until 4 rounds, after the spider-stitch, are finished. 26th round—Over mesh-stick, 3 in each. 27th, 28th, 29th, and 30th rounds—Over needle, net plain. This makes the band of close netting. 31st round—Over mesh-stick, net plain. 32d round—Over needle, net 2 together. 33d and 34th rounds—Like 27th round. 35th round—Over mesh-stick, net plain. 36th round—Over needle, Rose netting (see page 15). 37th and 38th rounds—Like 35th and 36th rounds. 39th and 40th rounds—Like 27th round. 41st round—Over mesh-stick, 2 in each. 42d, 43d and 44th rounds—Like 36th round. Border like that of No. 623. This is 15 inches in diameter.

Number 627. Centrepiece.—On foundation loop, over mesh-stick, net 20 stitches. 2d, 3d, and 4th rounds—Over needle, net plain. 5th round—Over mesh-stick, 3 in each. 6th to 9th rounds, inclusive—Like 2d round. 10th round—Over mesh-stick, net plain. 11th and 12th rounds—Like 2d round. 13th...
round—Over mesh-stick, 2 in each. 11th and 12th rounds—Like 2d round. 16th round—Over mesh-stick, 4 in each. 17th to 22d rounds, inclusive—Like 2d round. This forms the band, of close netting. 23d round—Like 10th round. 24th round—Over mesh-stick, net 4 together. 25th and 26th rounds—Like 2d round. 27th round—Like 10th round. 28th and 29th rounds—Like 2d round. 30th round—Over mesh-stick, 2 in each. 31st round—Over needle, net 2 together. 32d round—Like 2d round. 33d round—Like 2d round. 34th to 38th rounds, inclusive—Like 2d round. 39th round—Like 10th round. 40th round—Over needle, Rose netting (see page 12). 41st round—Like 2d round. 42d round—Like 10th round. 43d round—Over needle, Rose netting. 44th and 45th rounds—Like 2d round. 46th round—Over mesh-stick, 2 in each. 47th to 50th rounds, inclusive—Like 2d round. 51st round—Like 10th round. 52d and 53d rounds—Over mesh-stick, spider-stitch. 54th to 57th rounds, inclusive—Like 2d round.

Border.—Like Border of No. 623.

Figure 61. Border with Fringe.—The netting is all plain. On a long founda-

Figure 62. Detail of No. 628 (actual size)
tion thread, over small (½-inch) mesh-stick, net 7 rows. 8th row—Over large (⅞-inch) mesh-stick. 9th, 10th, and 11th rows—Over small mesh-stick. 12th row—Over large mesh-stick. 13th, 14th, and 15th rows—Over small mesh-stick. Fringe.—Wrap the thread over a 2-inch measure, use 8 strands and tie in each loop.

Number 626. Netted Bow. Materials.—Crochet cotton, No. 50; netting-needle, No. 22; two ivory rings, ½-inch in diameter; ⅞-inch mesh-stick. Net into ivory ring, over mesh-stick, 45 stitches. 2d to 6th rounds, inclusive—Over medium knitting-needle, net plain. 7th round—Over mesh-stick, 4 in first stitch, skip 2; repeat. 8th and 9th rounds—Over needle, net plain. Make two and join over maline or silk.

Number 628. Centrepiece in Gros Filet. — In this centrepiece, which measures one yard and ten inches in diameter, we have a very fine example of the newest application of Filet, called Gros Filet. It is in the materials employed that the work is unique, not in the methods. Simple square netting, and the design (Fig. 63, page 31) woven in Point de toile, describes the work. But the use of linen knitting thread No. 8,
a very coarse thread (about the size of No. 2 Cordonnet), and mesh-stick about \( \frac{3}{4} \) of an inch (or to be exact, \( \frac{3}{4} \) of an inch) makes a net, the size of which is seen at Fig. 62, page 31, a detail of the Gros Filet. The thread for weaving is soft and loose, and is clearly shown in the detail of work.

One-half of the pattern is given, including the central mesh. One hundred and thirty-three meshes is the size, but if several meshes are added, it is easier to finish the edge and cut away one or two rows of meshes. Number 12 netting-needle and \( \frac{3}{4} \)-inch (or \( \frac{1}{4} \)) mesh-stick will make the required size. A tape-needle or ribbon-threader may be used to advantage for the weaving, or a blunt-pointed tapestry needle may be used.

**Number 629. Doily.** Materials.—One spool thread No. 30; netting-needle No. 22; \( \frac{3}{4} \)-inch mesh-stick; large knitting-needle; embroidery floss letter D.

Net 40 stitches, over mesh-stick into foundation loop. 2d to 5th rounds, inclusive—Over needle, net plain. 6th round—Over mesh-stick, net in every alternate stitch. 7th round—Over mesh-stick, net 4 in each.
Net 7 rounds over needle, plain. **15th and 16th rounds**—Like 6th and 7th rounds. Ten rounds over needle, plain. **27th round**—Over mesh-stick, net in every third loop. **28th round**—Over mesh-stick, net 7 in every loop for "pineapple" edge. **29th and 30th rounds**—Over needle, net plain. **31st round**—Net 6 into group of 7. **32nd round**—Net 5 into group of 6. **33rd round**—Net 4 into group of 5. Continue until but one mesh is left in the point of 7. The thread should be left loose between groups as the number of stitches decreases. Embroider with floss in Point de reprise, as illustrated.

**Number 630. Doily.** **Materials.**—Spool cotton No. 40; small (3¾-inch), medium (3½-inch), and large (3½-inch) mesh-sticks; and netting-needle No. 16 or 18. Into a foundation loop net 34 stitches
over large mesh-stick. 2d, 3d, 4th, and 5th rounds—Over small mesh-stick, net plain. 6th and 7th rounds—Over medium mesh-stick, net plain. 8th round—Over medium, * net 4 plain; net 4 into next loop *; repeat. 9th round—Over medium, * net 3 plain; net two loops of the group of 4 with the 4th; net the remaining two with the next loop to the right *; repeat. 10th round—Like 6th round. 11th round—Over large, net 3 in each. 12th, 13th, 14th, 15th, and 16th rounds—Like 2d round. 17th round—Over large, net 3 in each. 18th, 19th, 20th, and 21st rounds—Like 2d round. 22d round—Over large, net plain. 23d round—Over medium, net 4 together. 24th round—Like 6th round. 25th round—Over large, net 4 into every alternate loop. 26th round—Like 2d round. Any centerpiece or doily can be enlarged by repeating and increasing the design as required.

PRISCILLA LIBRARY

Practical Instruction Books for Needleworkers

Priscilla Irish Crochet Book, No. 1 — This book has all the stitches and fillings for Irish Crochet, together with a large assortment of floral motifs. Full directions for working are given. Price, 25 cents

Priscilla Irish Crochet Book, No. 2 — This second book on Irish Crochet supplements the first very nicely, and gives a large assortment of motifs and finished articles, with clear and full directions for working. Price, 25 cents

Priscilla Bobbin Lace Book — The designs in this book take up the work from the beginning, all the tools and materials being fully described. Beautiful designs are given for Tuchon, Cluny, Russian and Bruges laces, with full directions for working. Price, 25 cents

Priscilla Cross Stitch Book — Has nearly two hundred working patterns for different articles for which cross-stitch is used. Many of them are suitable for bead-work. There are also six alphabets and directions for all kinds of canvas work. Price, 25 cents

Priscilla Tatting Book — This book contains many new designs for dress garnitures, collars, handkerchiefs, centrepieces, doilies, etc., with full directions for working. Price, 25 cents

Priscilla Knitting Book — This is a most useful collection of patterns for knitting, consisting of articles for men, women, and children. Articles in wool predominate. Price, 25 cents

Priscilla Battenberg and Point Lace Book — Here are practical, illustrated directions for making lace. Each step is taken up. Over one hundred stitches are shown, both simple and complicated. Price, 25 cents

Priscilla Macramé Book — Shows in detail how to do this fascinating form of Lace Work. Over 100 designs for Bags, Dress Garnitures, etc. Price, 25 cents

Priscilla French and Eyelet Embroidery Book — With the aid of this new book any one can learn this form of Embroidery. A wealth of designs given for Table Covers, Baby Wear, etc. Illustrations show stitches and a detail of nearly every design given. Price, 25 cents

Priscilla Crochet Edgings and Insertions Book — This book contains over 100 designs for beautiful crochet edgings and insertions which can be put to a multitude of uses. Handsomely illustrated with complete instructions. Price, 25 cents

Priscilla Cook Book — While this is not a Fancy Work Instruction Book, its contents are so interesting to most women that we have listed it here. Contains 442 recipes, appetizing and practical recipes by the famous culinary expert, Fanny Merritt Farmer. Price, 25 cents

Priscilla Punched Work Book — The beautiful designs in this book include articles for personal wear, table pieces, bedspreads, curtains, bureau-covers, cushions, pillows, lamp-shades, etc. All the stitches are illustrated and full directions given. Price, 25 cents

Priscilla Bead Work Book — This book gives directions for making all kinds of bead-work and illustrates many designs for bags, purses, card-cases, necklaces of all kinds, pendants, chains, girdles, hair ornaments, etc. The best book on bead-work. Price, 25 cents

Priscilla Filet Crochet Book — This new book gives a wide variety of patterns. Many illustrations of finished work are given, showing the beautiful effects possible, and a multitude of designs are carried out in block effect so that they can be easily copied. Price, 25 cents

Priscilla Basketry Book — In this new Basketry Book we have included the best of the various articles on basketry that have appeared in The Modern Priscilla from time to time, and a variety of new material never before published. Price, 25 cents

Priscilla Hardanger Book — In the opening chapters will be found the various foundation stitches and their many combinations. Following these will be found many attractive designs with details and copious descriptive text, making their reproduction an easy matter. Price, 25 cents

Priscilla Drawn Work Book — Full-sized details of each design are an important feature of this book, and by their aid the most intricate patterns can be copied with ease. Designs from Porto Rico, Fajal, Germany, Russia, and far-off China, besides many in the well-known Mexican work, make this book an unusual one. Price, 25 cents

Priscilla Colored Cross Stitch Books — No. 1. Has four (4) full-page plates in full color, illustrating 35 separate designs and a complete alphabet. No. 2. This book also has four (4) full pages in color, illustrating 40 designs. Facing each plate is a full page of text matter, giving a wealth of suggestions for the worker. Price, 25 cents each

Priscilla Crochet Bedspreads Book — Our new book of Crochet Bedspreads contains a large number of designs which are beautifully illustrated and have full directions. A striking novelty is a motto insertion in the new Cameo Crochet. Price, 25 cents
WHAT “FANCY-WORK” MEANS

When they see or hear the word “Fancy-Work,” many people think only of Art Needlework. But as used by The Modern Priscilla, the expression “Fancy-Work” has a much broader meaning. It includes not only Embroidery, in all its manifold varieties, but it includes as well such feminine handicrafts and occupations as Knitting, Crochet, Lace-making, Weaving, Netting, Tatting, Basketry, Braided-work, Oil, Water-color, and China Painting, Stencilizing, Art Emusa Work, Art Leather Work, Typographuy, and the like.

In The Modern Priscilla space is devoted to all these subjects from time to time, and no other magazine covers them half so thoroughly.

WHAT PRISCILLA GIVES

In connection with what is broadly termed “Fancy-Work,” The Modern Priscilla gives a three-fold service. 1. It supplies designs in infinite variety and of rare beauty (from 50 to 100 each month, with patterns for those who desire them). 2. It gives detailed and explicit instruction, so clear and complete that any woman of average intelligence can gain proficiency in the work that most appeals to her. 3. It provides a wealth of suggestions for the practical use and application of the knowledge thus gained.

HOW FASHIONS FIT IN

This last service is especially noticeable in the Fashion Department, where in addition to sane and sensible adaptations of the latest modes, the use of the most appropriate embroidery is pictured and described in connection with each costume illustrated.

HOW PRISCILLA SAVES ITS COST

“Fancy-Work,” it will now be seen, at least the “Fancy-Work” that The Modern Priscilla stands for, is not frivolous occupation for idle hours, but a decidedly useful occupation, that will supply in small cost many a dainty bit of wearing apparel or household decoration that could otherwise be had only at considerable expense, or perhaps could not be afforded at all.

Many a subscriber has gratefully acknowledged this debt to Priscilla, and it is no false assertion that a single copy has often suggested economies amounting to more than the year’s subscription price.

HOW A GOOD MAGAZINE WAS MADE BETTER

Much as can truthfully be said about the “Fancy-Work” value of The Modern Priscilla, scarcely half the story has been told.

In 1911 the publishers of The Modern Priscilla purchased a well-known domestic science magazine called “Everyday Housekeeping,” and in due season merged it with their older publication, making what has well been called a “Double Value Magazine.”

THE MISSION OF “EVERYDAY HOUSEKEEPING”

“Everyday Housekeeping” is now a distinct and separate section of The Modern Priscilla, and it is the aim of the editors to make it of the greatest possible helpfulness to Priscilla readers.

Its recipes are economical, appetizing and nourishing; its special articles are authoritative and deal with practical subjects, its hints, helps and suggestions are gleaned from the experience of housekeepers the country over.

THE PRICE SMALL — THE VALUE UNUSUAL

When all the foregoing is considered, even the most critical must admit that at $1.00 a year The Modern Priscilla is an exceptional value (Canadian subscription price, $1.25, and that its steady growth in circulation from a few hundred copies 25 years ago to nearly 40,000 today is but the natural outcome of its policy of helpfulness.

The news-stand price of The Modern Priscilla is 10 cents a copy. Orders for subscriptions should be sent to The Priscilla Publishing Company, 35 Broad Street, Boston, Mass.
