THE NERIS PETER CO., PHOTOLITH., WASHINGTON, D.C.
To all whom it may concern:

Be it known that I, WALTER A. O’BRIEN, a citizen of the United States, and a resident of Boston, county of Suffolk, State of Massachusetts, have invented a new, original, and ornamental Design for a Fabric, of which the following is a full, clear, and exact description, reference being had to the accompanying drawing, forming part hereof.

5 The drawing represents a face view of a portion of a fabric illustrating my design.

The leading feature of my design consists in a series of broad bands each ornamented by a plurality of relatively small sinuous or serpentine ribs in parallelism, the longitudinal edges of the bands being defined and accented by relatively large rope-like wales contacting at intervals with the contiguous ribs, and the wales of two adjacent bands being laterally separated by a longitudinal trough-like depression.

In the drawing the broad bands a have each a plurality of ornamental sinuous or serpentine ribs c thereon, the longitudinal edges of the bands being defined and accented by relatively large rope-like wales b, which contact at intervals with the contiguous ribs, and the wales of two adjacent bands are separated by a longitudinal trough-like depression b.

I claim—

The ornamental design for a fabric, substantially as herein shown and described.

In testimony whereof I have signed my name to this specification in the presence of two subscribing witnesses.

WALTER A. O’BRIEN.

Witnesses:

JOHN C. EDWARDS,
MARGARET A. DUNN.
