

**YOU'RE
WHAT'S
NEXT.**

[intel.com/jobs](https://www.intel.com/jobs)

Bold and brainy? Welcome home.

Quirky and creative or quietly powerful, you can be yourself here. You'll be in good company.

We're looking for Bachelors, Master, and PhD graduates and interns to join us in our mission to change the world (and help us redefine the PC, smartphone, tablet, or cloud).

While our primary focuses are Electrical Engineering, Computer Science and Computer Engineering, we hire most majors and degrees.
