

# Quiz Stuff

Use a full sheet of 8½x11" paper. (Half sheet? Half credit!)

Put your NetID and last name in the far upper left hand corner, like this:

*whm, Mitchell*

.....

There is no need to write out questions. Number responses if you'd like, but that's not required.

Save time by keeping answers short. By my count, you need to write only thirteen words for 100% on this quiz.

Each answer is worth ½ point. 4½ points total, and a ½ point of E.C.

You'll have three minutes on this quiz.

1. What does the "M" in HTML stand for?
2. Consider this piece of HTML: **<h1 id="top">Test</h1>**  
What does the whole thing represent?  
What is **<h1>** called?  
What is **</h1>** called?  
**id** is an example of a what?  
What characters aren't really needed?
3. Does **<li>** require a matching **</li>**?
4. Fill in: **whm** would like \_\_\_% of the class to get an A.
5. What's one interesting thing about the Mosaic browser (created in 1993)?
6. (½ point EC) Cite something on the HTML timeline before 1990.
