CSC 346 Cloud Computing
McClelland Park Rm 105 - Tuesday & Thursday 11am - 12:15pm

Course Description
This course focuses on cloud programming, with an emphasis on using the cloud to solve problems. The course will look at how distributed systems, databases, networks, etc. are used to implement cloud computing platforms and cloud applications, and the impact of the infinite scalability and pay-as-you-go on the platforms and applications.

Instructor and Contact Information
Mark Fischer: he/him/his - fischerm@arizona.edu
Office Hours: TBD - In person and Zoom
Teaching Assistants:
  Sean Eddy - seane@arizona.edu
Instructors Contact List: csc346-instructors-fall2022@list.arizona.edu
Website: https://www2.cs.arizona.edu/classes/cs346/spring24/

Course Format and Teaching Methods
This course will be in-person lecture. There will be weekly homework assignments, and three exams. I encourage questions and class discussion.

Class lectures will be recorded and available on Panopto shortly after the in-person class time.

Expected Learning Outcomes
This course will introduce you to many topics in Cloud Computing. Because of the breadth of topics here, we will not have time to go into great detail on any one topic.
- History of cloud computing, enabling technologies, and common philosophy, including computing as a utility and its implications
- Strategies and patterns for the design and implementation of cloud services
- Underlying technologies of cloud services
- Specific implementations of various cloud services, and how to use them

Makeup Policy for Students Who Register Late
This class is currently full, so in the unlikely event you are able to even register for the course late, any homework assignments must still be completed by the posted date. If you register after a homework assignment was due, it cannot be made up. The first Homework will be due on January 20th. Plan accordingly!

Course Communications
Official course related communications and announcements will be to your University Email address.

Class discussions will take place on the Computer Science Discord server. Contact
advising@cs.arizona.edu to gain access.

Required Texts or Readings
There are no required textbooks for this course. Reading materials will primarily be online documentation for the various technologies used in the course.

Required or Special Materials
You will need access to a computer you can install software on, and an internet connection.

Assignments and Examinations: Schedule/Due Dates
There will be three Exams for this course.

- Exam 1: February 15th - During regular class meeting
- Exam 2: March 28th - During regular class meeting
- Exam 3: May 7th - During Final Exam Slot

There will be around 10 homework assignments for the course. Homework will be assigned on the Thursday course meeting, and will be due the following Saturday at 11pm. You can turn the assignments in early, on the Thursday before the Due Date for extra credit. The amount of extra credit available will vary depending on the assignment.

Final Examination
McClelland Park Rm 105: May 7th 2024 from 10:30am - 12:30pm

Final Exam Regulations and Final Exam Schedule:
https://registrar.arizona.edu/faculty-staff-resources/room-class-scheduling/schedule-classes/final-exams

Grading Scale and Policies
University policy regarding grades and grading systems is available at https://catalog.arizona.edu/policy/courses-credit/grading/grading-system

This course will use the Regular Grade policy from the University’s grading policy linked above.

Late work will only be accepted for extraordinary circumstances as determined by the instructor. If you know you will be unable to complete an assignment on-time contact the instructor as soon as possible.

Exams will each be worth 100 points. Exams will be 30% of the final grade.

Each homework assignment will be worth a varying amount of points from 20 to 50 points or so, commensurate with the complexity of the assignment. All of the homework assignment points will be added up and multiplied by 70% towards your final grade.

Exam Weighted Score = \( \frac{\text{your exam points}}{\text{total exam points}} \cdot 0.3 \)

Homework Weighted Score = \( \frac{\text{your homework points}}{\text{total homework points}} \cdot 0.7 \)

Your final grade will then be Homework Weighted Score + Exam Weighted Score.
Incomplete (I) or Withdrawal (W):
Requests for incomplete (I) or withdrawal (W) must be made in accordance with University policies, which are available at http://catalog.arizona.edu/policy/grades-and-grading-system#incomplete and http://catalog.arizona.edu/policy/grades-and-grading-system#Withdrawal respectively.

Dispute of Grade Policy
If you wish to dispute your score for an Exam or Assignment the issue must be raised within 7 days of receiving your grade.

Honors Credit
Students wishing to contract this course for Honors Credit should e-mail me to set up an appointment to discuss the terms of the contact and to sign the Honors Course Contract Request Form. The form is available at http://www.honors.arizona.edu/honors-contracts

Honors Contracts must be agreed upon before the first Exam on February 15th.

Classroom Behavior Policy
To foster a positive learning environment, students and instructors have a shared responsibility. We want a safe, welcoming, and inclusive environment where all of us feel comfortable with each other and where we can challenge ourselves to succeed. To that end, our focus is on the tasks at hand and not on extraneous activities (e.g., texting, chatting, reading a newspaper, making phone calls, web surfing, etc.).

Students are asked to refrain from disruptive conversations with people sitting around them during lecture. Students observed engaging in disruptive activity will be asked to cease this behavior. Those who continue to disrupt the class will be asked to leave lecture or discussion and may be reported to the Dean of Students.

Safety on Campus and in the Classroom
For a list of emergency procedures for all types of incidents, please visit the website of the Critical Incident Response Team (CIRT): [https://cirt.arizona.edu/case-emergency/overview](https://cirt.arizona.edu/case-emergency/overview)
