

CSc 372, Fall 2006
Assignment 0
Due: Friday, August 25, 23:59:59

For ten points send a message to `cs372-staff@cs...` with answers to the following questions. Please include the text of the questions in your message. (Copy it from this assignment on the website Handouts page.)

What is your name?

What is your CS login?

What is your picture number? (If not pictured, indicate so.)

What computer science or related courses have you taken?

What computer science or related courses are you taking this semester?

What programming languages do you know well enough to write the following two programs: (1) Using a loop, print the numbers from 1 to 10. (2) Read lines from the keyboard and print them out in reverse order—last line first, first line last. Assume that you'd have access to reference material.

What IDEs (such as Eclipse) or standalone text editors are you familiar with?

Do you know how to create text files and do simple manipulations such as copying and deleting files on UNIX?

Where would you like to see the instructor and TA hold office hours? (1) A lab in Gould-Simpson. (2) Their offices. (3) Other: _____

What programming language would you most like to learn? (Consider all languages you've heard of, not just what we're planning to study this semester.)

Extra credit (2 points): Tell me a couple of things about yourself. Some possibilities: where you're from, hobbies, current employment, post-graduation plans, etc.
