## Notes on Assignment 8 Grading

### Books

Just about everybody's solution worked perfectly—all but two solutions passed every test.

One of the things stated in the *Miscellaneous* section of the assignment was that `printf` et al. were forbidden and that `iostreams` were to be used instead. Using `printf` resulted in a five-point deduction.

### Miscellaneous

There were 15 `extra.txt` submissions that had a clear estimate of hours spent on the whole assignment and that didn't cite factors that could add significant noise to the data. The average was 6.1 hours; the median was 5 hours. Here are the data points: 3, 4, 4, 4.5, 5, 5, 5, 5, 6, 7, 8, 8, 8, 8.5, 10
