To make a picot, pass right thread of a pair over the left of same pair, and with a pin draw it, looped, under the left and over the right and leaving the pin in the loop, stick it into the pattern at the designated points. Directions for working a picot is first given in Pattern No. 26. A great many lace makers, however, prefer this method, which is employed almost exclusively by the lace weavers of Germany, and which we are inclined to favor, as being the most practical of the several ways of making the picot. It is optional, however, with the weaver which method is employed, as the results obtained are the same in each. Ctc 16th and 17th, 17th and 18th, pin in 27, close. Connect each pair of bobbins by tying the threads, and wind each knot down on one of the bobbins, until it is about twelve inches from the other bobbin. Hang the eight pairs on a pin at 764. Wt 7th and 8th, etc 6th and 7th, 5th and 6th, 4th and 5th, 3d and 4th, 2d and 3d, tw 2d, wt 1st and 2d, pin in 765, close. Ctc to left, until 7th is used, tw 7th, wt 7th and 8th, make a sewing at 764. Wt 7th and 8th, etc to left, until 2d is used, tw 2d, wt 1st and 2d, pin in 766. Continue braid thus, making five sewings at 764, and pinning in 767, 768, 769, 770. With 1st and 2d pairs, make a bride with picot, of sufficient length to make a sewing at 450, and continue bride, to pin in 770. Make close braid to 775, making four more sewings at 764 and pinning in 771, 772, 773, 774, 775, and connecting the braids by sewings at 470, 472 and 476. Continue close braid to 780, pinning twice in 778, and then with 1st and 2d pairs, make a bride with picot, of sufficient length to make a sewing at 480, and continue bride with picot, back to pin

at 780, wt 1st and 2d, and make bride with picot, of sufficient length to make a sewing at 499, continue bride, with picot, back to pin in 780. Continue close braid to 803, making 3 sewings at 800, and others to connect the braids at 505, 511 and 516, at 446 and 445. Make open braid, with spiders, at 804, 807, 808, 811, 812, 815, 819, pinning in 805, 806, 809, 810, 813, 814, 816, 817, 818 and 819, and making sewings at 792, 793, 794, 796, 798. Continue close braid, making five sewings at 819, and work to 833, making three sewings at 827. Make reverse braid, with spiders, at 834, 837, 838, 841, 842, 845 and 846. Make close braid to 849, and then with 1st and 2d, make a bride with picot, of sufficient length to make a sewing at 523, and continue bride with picot back to pin at 849. Continue close braid, making three sewings at 849, pinning in 850, 851, 852, and continue braid to 867, making two sewings at 864. Make open braid, with spiders, at 868, 871, 872, 875, 876, 879, 880, 883, 884, 887, and sewings at 852, 854, 855, 856, 857, 858, 860, 862 and 864. Continue with close braid, making four sewings at 886, pinning at 899, first, and connecting by bride with picot, with centre braid by a sewing at 533, returning with bride with picot to 889, and continue close braid to 905, making five sewings at 900. The pattern is completed by following the convolutions, with the alternated open and close braids, until the figure is ended at 1050, connecting with long brides, to the centre braid, 534, 535, 537, 539, and by sewings at 541, 542, 543, 544, 543, and with a long double bride between 1046 and 566. Tie each pair of threads twice and cut off. Finish the upper braid, making the connections as indicated.

HONITON LACE.—As the method of weaving Honiton Lace differs somewhat from the other laces, a few words here upon the subject may not be amiss, especially, as the next volume of this work, which will be Number Three, will begin with Honiton Lace.

On page No. 49 of this volume instructions are given for working Honiton Pattern No. 30. Before starting this lesson, however, it will perhaps be advantageous to the learner to carefully read the following:—

Honiton Lace is recognized by the shape of its clearly defined figures, perfectly delineating leaves, sprays, flowers, insects and geometrical designs, closely woven on a background which may be either the "Reseau," which is the name given to the different net-grounds, or the more open Bride-ground. These figures are often outlined by a gimp, which is a heavy, glossy cord, giving a raised effect to the work. The throws employed in making this lace are the same which have been learned as the fundamental principles of lace-making, the half-throw, the whole-throw, and the "cloth-stitch," or etc. The figures, when the pattern brings them into contact, are lightly connected by sewings, so-called, and picots, or purls, form an ornamentation of the bride-ground. The method of forming these sewings and picots is clearly shown in the foregoing instructions.

Honiton Lace is often finished, on the scallop-edge, with the so-called purl-edge, and to illustrate the method of making this, a braid having the purls on both sides is an excellent study, and is made as follows: To the pattern for Net Ground, attach seven pairs of threads in the usual manner, one pair being gimps, or colored threads will do as well, so arranged that the first gimp will be the fifth thread, counting from the left, and the second gimp will be the twelfth thread. Begin at the left and work across with the cloth-stitch, or etc, until the second gimp is used. Then twist once the pair

which has traveled across, called the shuttle-pair, etc with the last two pairs but do not place a pin, pull up to place, twist the shuttle-pair seven times. part the bobbins to drive the twists up close to the work, place a pin under the twisted threads, with a turn of the wrist bringing them over in a loop stick the pin in the dot numbered 2, and etc with the sixth and seventh pairs. Twist the sixth pair once, and the seventh pair three times. Work across to opposite side and repeat the directions for making the purl. Another pretty braid, which may be used for purposes of trimming, seam-binding, or Battenburg, is made thus:—

On the Net Ground Pattern, hang three pairs of white threads and three pairs of red threads, two pairs of red threads being pinned together on the left-hand side of the pattern, and one pair of the red threads at the right-hand side, with the three white pairs distributed between. Ctc 1st and 2nd, tw both pairs three times, place a pin in 1, etc 2nd and 3rd, 3rd and 4th, 4th and 5th, tw 5th pair three times, pin in 2, under the fifth pair, which will leave both red pairs outside the pin. Ctc 5th and 6th, and tw both pairs three times. Return in the same way and continue until the fifth pin-dot on the left-hand side is used. Slip the twelfth bobbin under all the other threads to the first place at the left, and pass the first bobbin under all the threads to take the place of the twelfth, at the right. A cross is thus formed on the right side of the braid, Honiton lace being always worked face-downwards. Continue working as before, and at the tenth dot on the left-hand side cross the outside threads again, and do so at every fifth dot, throughout the work.

TO AVOID A KNOT, should a breakage occur, tie the thread-end of the bobbin around a pin, placed backward of the working-line and outside of the pattern, bring the thread through the pins to its place and twist it with its companion thread. Work an inch or more of the pattern, remove the pin and clip off the broken ends of the threads, close to the work.

SILK LACES.—Almost any of the patterns illustrated in "THE AMERICAN LACE MAKER" can be made, effectively, in silk fibre. As the silks loosen and fray somewhat, from handling and weaving, it is an excellent precaution to rub the fingers well with white wax while winding the bobbins, which imparts an additional lustre to the silk, besides preserving it from untwisting.

VOLUME THREE of "THE AMERICAN LACE MAKER" contains instructions for working Patterns No. 33 to 46, inclusive, beginning with the beautiful Honiton patterns, and following up with Braid Guipures, Mechlin and Thread Laces; also, Saxony, Regency Point, Valenciennes, Binche and Duchess Laces; giving complete and minute directions for the working of one or more of each of these beautiful fabrics, among the most exquisite known to the lace-making art.

The publishers of this volume have gone to a great expense in securing the services of the most accomplished lace-weavers of modern times, in compiling and revising this work, which we have no hesitancy in saying is the only book of its kind in existence.

The price of this volume is 50 cents per copy, postage prepaid.
