Description:
Berico Technologies is looking for a motivated, full-time junior web developer with front end web design experience using technologies like (X)HTML and CSS, along with backend development experience with Microsoft-based technologies like ASP.NET, C# and Microsoft SQL Server. The candidate should be comfortable working within a team environment and willing to learn, collaborate with remote team members and adapt to new technologies and skill sets.

Minimum Qualifications:
* Must be comfortable writing code within an integrated development environment
* Must have the ability to obtain a TS/SCI security clearance
* Must be able to communicate effectively between team members at multiple locations and willing to collaborate as required

Bonus Qualifications:
* Experience using Visual Studio and ASP.NET
* TS/SCI security clearance
* Java development experience using the SWING framework
* AJAX experience with the AJAX Control Toolkit
* Experience working with relational databases
