GUI programmer needed-

Dr. Jim Yeh is looking for an experienced student or individual to build a graphic user interface program (GUI) (i.e. pre- and post-processors) for our hydrological tomography software during the summer. This graphic user interface program will involve generation, visual display, manipulation of 3-D finite element mesh. It will interface with Tecplot or other commercial graphic softwares. The GUI will run on a PC or Linux platform.

Please contact Professor Jim Yeh at :

Department of Hydrology and Water Resources,
The University of Arizona

(621-5943 or yeh@hwr.arizona.edu).
